

Industrial Cooling System

- Apply for Electric Cabinet
 - Electric Control System
 - Tele-Communication Equipment
 - Transformer Control System
- Hanging on Electric Cabinet, upright installation, air circulation from right to left.
- With Micro-Processor control system, plus industrial protection circuit to ensure the temp. in fixed range, with Auto-Reset Function to self-restore previous operation mode

LVI Series

Industrial Cooling System

LVI-4000/6000/8000 Technical Data
